

## Regarding coronavirus (COVID-19) and the Swedish pilot services for Deep-Sea pilotage and Sound Pilotage.

### Dear Sir/Madam

In order to reduce the risk of infection and spreading the virus in connection with pilotage, and to follow the directions issued by the Public Health Agency of Sweden and the Swedish Government, we have adapted certain routines. Please find these attached and we kindly ask you to consult. For further information concerning COVID-19 infection control measures in Sweden, please see <https://www.folkhalsomyndigheten.se/the-public-health-agency-of-sweden/>

The coronavirus (COVID-19) pandemic may affect our ability to provide our services to the same extent as usual, but we have continuity plans in place to ensure it will have as little effect as possible. We kindly ask for your understanding.

Best wishes in a difficult time and looking forward to a good cooperation.

Norrköping 11 January 2022

Andreas Arvidsson  
Head of Business Area Pilotage  
Swedish Maritime Administration
